Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 26 August 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 7-28 are rejected under 35 U.S.C. 102(b) as being anticipated by Bostrom Mats (EP 0 778 044 A2).

Mats discloses in figures 1-3, a guiding catheter for guiding a guidewire (22), wherein said guidewire (22) having a main portion biased into a first configuration, a first section with a first curvature (at P1) and a second section having a second different curvature (P2) to that of said first section and wherein the curved configuration of the guide adapted to assume a varied configuration as it is passed through a bodily vessel or cavity based upon the resiliently flexible nature of the guide wire.

3. Claims 7-28 are rejected under 35 U.S.C. 102(b) as being anticipated by Doyle et al. (EP 0 381 810)

Doyle et al discloses in figures 1-5, a guiding catheter for guiding a guidewire (10), wherein said guidewire (10) having a main portion biased into a first configuration, a first section with a first curvature and a second section having a second different curvature to that of said first section and wherein the curved configuration of the guide adapted to assume a varied configuration as it is

passed through a bodily vessel or cavity based upon the resiliently flexible nature of the guide wire.

Response to Arguments

4. Applicant's arguments filed 08/26/2004 have been fully considered but they are not persuasive. In response to applicant's argument that the Bostrom Mats (EP 0 778 044 A2) guide wire (22) is strong enough to impart its bend ability and curved portion of the guidewire disclosed in EP 0 381 810 are used to modify the direction of the catheter which rides over another guidewire, a recitation of the intended use of the claimed invention must result in a structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the claim. In a claim drawn to a process of making, the intended use must result in a manipulative difference as compared to the prior art. See *In re Casey*, 152 USPQ 235 (CCPA 1967) and *In re Otto*, 136 USPQ 458, 459 (CCPA 1963).

Conclusion

1. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any
